A: Your sort clause is always taking the first element, not the one that matches your current condition. Since all the strings start with a capital letter, it will always put "sentinel 4: dark star" first and everything else (that doesn't start with a capital) in the beginning of the list. Just remove the sort completely and it will work: `String[] lines = File.ReadAllLines(fileName); String[] sorted = lines.OrderBy(s => s.StartsWith("Sentinel 4: dark star")).ToArray();` UNPUBLISHED UNITED STATES COURT OF APPEALS FOR THE FOURTH CIRCUIT No. 18-4204 UNITED STATES OF AMERICA, Plaintiff - Appellee, v.
